mobileiron | incapptic connect

PUBLISH YOUR APPS IN RECORD TIME

The incapptic Connect enterprise software quickly and efficiently enables publishing and updates of internally and externally developed mobile apps.

We are replacing the error-prone manual publishing process with a smooth, automated solution that allows you to publish your apps in just two minutes.

CHALLENGE

Numerous Pipelines with **Complex Stakeholder Interactions**

Time Intensive with **Long Lead Times**

Complex and **Conflicting Compliance Requirements** for app processing

Unregulated App Portfolio due to business unit autonomy & lack of centralized management

Complex and **Ever-Changing** requirements for app code signing & app distribution

SOLUTION

Integrate all pipelines under one roof

Reduce your deployment lead time to 2 minutes

Implement app-publishing industry best practices

Enterprise-level overview of all app projects

Automate Signing, Resigning and Provisioning Profile Updates & Deploy New Features with a click
